

Dear Parent and Guardians

We are delighted to be able to share with you some of our student's work. We hope that you may have time to sit down for a cuppa and have a read of the student's Stay at Home Diaries. Students and staff were given an optional task to write a short piece on the View from their Window. There is no expectation on students to complete these optional tasks, they are as they say in the name 'optional'. Students who were looking for things to fill their time and wanted to take part have produced some really creative pieces of writing and have kindly given their permission for us to share a selection of them with you. You may need a tissue at the ready there are some really emotive pieces, both joyful and moving.

Enjoy!

Kind regards
