

Report Definitions for A Level 2020-21

A **WORKING GRADE** is the total of all that each student has achieved so far. It includes classwork, homework, formal assessments and oral contributions to class. It is not simply the score achieved in the most recent assessment.

Working grades are given with qualifiers to help you understand the performance of your daughter/son in more detail. They are defined as follows:

- 1** *working at the top of this grade*
- 2** *working in the middle of this grade*
- 3** *working at the bottom of this grade*
