### Data Protection

When accessing personal data for remote learning purposes, all staff members will:

- Access personal data via CPOMs, SIM's and secure login to Microsoft teams
- Only use devices provided by the school/Trust (see also ICT Acceptable Use Policy)

Staff must only share professional contact details with parents/carers and pupils eg. School email address and school telephone

### Devices and Security

All use of IT must be done in line with the Trust's Acceptable Use of IT Policy

All workers will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

Should issues arise for workers in relation to the Code of Conduct then this must be discussed with the Headteacher in the first instance

## **Appendix 2 – use of Microsoft Teams guidance** - (Trust Agreed Platform)

### **Chat Function In Teams:**

- Decide whether you'll let pupils use chat in Microsoft Teams. It can be a very useful tool for communication for learning but please also be aware that it could lead to bullying, or be a distraction from learning.
- If you wish to disable chat for pupils, you need to create a '[messaging policy](#)' in Teams and then assign it to pupils.
  - First, create your new messaging policy:
    1. Log in to the Microsoft Teams [admin centre](#)
    2. Click 'Messaging policies' on the left-hand side
    3. Click 'New policy' and give it a name (e.g. 'Disable chat')
    4. Select the 'Chat' setting, and turn it off
    5. Click 'Save'
  - Then, assign this policy to pupils:
    1. Log in to the admin centre
    2. Click 'Messaging policies' on the left-hand side
    3. Click on the policy you've just made, then 'Manage users'
    4. Search for the user you want to add, click on their name, and then click 'Add'
    5. Repeat step 4 until you've added all of your pupils
    6. Click 'Save'

### **General Conduct/Use:**

- Sit against a neutral background – [Change your Background in Microsoft Teams](#) this link provides step by step guidance on how to change the background
- Avoid recording in your bedroom where possible (if that's not possible, use a neutral background)
- Dress like you would for school – no pyjamas!
- Double check that any other tabs you have open in your browser would be appropriate for a pupil to see, if you are sharing your screen
- Use professional language
- Ask pupils to also be in a shared space in their house, rather than in their bedroom. No pyjamas for pupils either! Alternatively, you could ask them to turn their cameras off.
- Ask parents who'll also be there to be mindful that other children might see or hear them and anything in the background.

### **Recording in Microsoft Teams:**

- Make a recording so there's something to go back to later on if you need to, and keep a log of who's doing video calls and when. Check that parents are happy with you making recordings first – tell them it's for school records only.
- To [record](#) in Microsoft Teams:
  1. In the meeting, click 'More options' (the 3 dots) > 'Start recording'
  2. Wait for the recording to start (you'll get a notification saying 'Recording has started')
  3. When you finish, click 'More options' > 'Stop recording'
  4. Wait for the recording to be saved in Microsoft Stream (whoever started the recording will get an email notification when it's ready to watch)
- If you're using Microsoft Teams for live streams
- To [record](#) a live event in Teams, check the 'Recording available to producers and presenters' setting when you schedule your live stream. You can make the recording available for pupils too, by checking 'Recording available to attendees'. The recording will be available for 180 days after the event ends.

- To disable chat for pupils, uncheck the 'Q&A' setting when you schedule your live stream.
